Percentage : 82%

📂 PROJECTS

Skyden – Full Stack SaaS File Sharing Platform,
Tech Stack: React.js, Tailwind CSS, Spring Boot, MongoDB, Clerk Authentication, RazorPay, Netlify, Render

- Designed and implemented a **credit-based monetization system**, providing users limited free credits and linking storage usage to purchased credits.
- Built a **secure backend architecture** with **Spring Boot & MongoDB** to manage file uploads/downloads, ensuring integrity and performance.
- Integrated **RazorPay payment gateway** for premium plan purchases, enabling seamless and secure transactions.
- Developed **OTP-based user authentication** using **Clerk**, including sign-up/login and profile management.
- Delivered a **responsive and intuitive UI** using **React.js and Tailwind CSS**, optimizing user experience across devices.
